# THE BLAIRMORE ENTERPRISE

VOL. X. NO. 49

BLAIRMORE, ALBERTA THURSDAY NOVEMBER 27, 1919

\$2.00 YEARLY

## Robert Dollar

Before he was 14 was a cook's boy in a Canadian lumber camp. At 21 he was a lumber foreman and saved money on wages of \$10 a month. From his first investment in a boat in which to transport lumber cheaply his shipping venture grew to a fleet. Today he is lumberman, shipper, and general merchant because early he learned to save his money.

Come get the saving habit and unless you are an exception to the rule you will find that saving money is as easy as spending money.

We welcome the opportunity of serving you.

## UNION BANK OF CANADA

RESOURCES OF \$153,000,000

## THE PASS VICTORY LOAN REACHES TOTAL OF \$248,200

Despite Unfavorable Conditions Existing in The Pass for Several Months During the Summer, a Good Showing Was Made

### Presentation to

Mr. J. M. Windsor

A very pleasant gathering was held in the Masonic Hall on Wednesday evening the occasion being a social and presentation to Mr. and Mrs. J. M. Windsor, who are on the eve of their departure from Blairmore to take up their future residence at Boisvain, Manitoba.

Mr. Windsor who has for several years past filled the position of manager of the local branches of the Union Bank of Canada at Bellevue, Hillcrest, Frank and Blairmore has received well deserved promotion in the form of transfer to the management of the bigger branch of the bank at Boisvain.

His many friends from the above named towns gathered together on this occasion to show their great appreciation of the services rendered by Mr. Windsor both as manager of the bank and as a citizen and also to show the esteem in which both himself and Mrs. Windsor are held by their many friends through the district.

Mr. F. M. Pinkney was chairman of the occasion and presented the business and purpose of the gathering in a most able manner. The presentation which consisted of a handsome sterling silver set including tea service with bon-bon dish, etc., two tea sets, a mahogany serving tray in Colonial design, was made by Mr. J. E. Gillis and his remarks excellently conveyed the sentiments of those gathered together in their well wishes for the future happiness and success of Mr. and Mrs. Windsor and the deep regret felt in the departure of such long time friends.

Mr. Windsor made reply expressing his regret at departing from his many friends in this district and stating that he hoped that in the future he may return to Alberta.

Speeches were also made by the following gentlemen, Geo. Cruickshanks, Dr. H. A. McDonald and F. Smith of Hillcrest, S. J. Lamey of Bellevue, and R. Green, R. D. McMillan, L. Dutil and J. W. Gresham of Blairmore.

Among the gathering were Judge E. P. McNeil and Mr. Trenholme Dickson of Macleod, Alta.

Crystal Dairy  
Farm Sold For \$11,000

Mr. A. Comfort, who has been operating the Crystal Dairy for the past two years, during which time he has given the residents of Blairmore excellent service, has disposed of his business, consisting of good well, 48 milch cows, buildings, a bunch of young stock and equipment, together with his lease of the land occupied, to Messrs. Priddin and Oliver for the sum of \$11,000.

Mr. Comfort purchased the business from Lank Bros. two years ago.

The new owners are both bright up-to-date young men and will no doubt continue the business on the same basis of service to the public that Mr. Comfort has conducted it on. The Enterprise wishes them success in their future venture.

Mr. J. B. Graham, who has accepted a position as clerk in the Thompson Co.'s store, says "I seem to be at work again."

Notwithstanding the fact that The Pass suffered financially during the past Summer from a miners' strike of several months duration, the district acquitted itself creditably in the 1919 Victory Loan Subscriptions.

The total number of subscriptions reached 472, while the amount represented was \$248,200. Following is the apportionment by towns: Coleman: applicants 127, amount \$83,890. Blairmore: applications 150, amount \$58,250. Frank: applications 34, amount \$10,800. Bellevue: applications 103, amount \$21,200. Hillcrest: applications 37, amount \$23,450. Passmore: applications 21, amount \$6,900. The grand total subscribed \$246,200, is \$48,200 in excess of the quota allotted The Pass.

### District Court Sittings

A sitting of the District Court of Macleod was held in Blairmore on Wednesday of this week presided over by Judge E. P. McNeil of Macleod. Several cases of more or less local interest were brought before the Court, among them being an appeal from summary conviction of a case heard recently before J. D. Disney at Coleman.

This was a case where Joe Kay a Chinaman in the restaurant busi-

ness at Coleman was charged under the Provincial Health Act with keeping his place in an unsanitary condition. The charge was brought in by Mr. D. Evans-Jones,

Inspector of the Provincial Health Department and which was dis-

missed by Mr. Disney at Coleman,

owing to the fact that the Act did

not authorize any court imposing a penalty for this offense.

The appeal was presented to the Court by L. H. Putman, acting for the Provincial Health Department and J. E. Gillis appeared for Joe Kay the defendant.

After hearing the circumstances of the case Judge McNeil decided that the Justice at Coleman did

right in dismissing the case owing

to the lack of authorization under the Health Act to penalize an offender. The appeal was dis-

missed.

The case of Evans versus the Trusts and Guarantee Company was laid over to be brought up at the next Assizes at Macleod.

An action was brought into Court by J. Hammond against Jas. Barr both of the district of Pincher Creek whereby the claimant, J. Hammond, claimed \$65.00 as proceeds due him from the sale of houses which he claimed were bought by himself and the defendant from the Davenport Coal Co., at Burnside.

L. H. Putnam appeared for the claimant and Mr. McKenzie for the defendant. After summing up the case the Judge decided that the claimant was not entitled to the amount of his claim owing to the absence of any proof that a partnership existed between himself and the defendant at the time of the transaction. The case was dismissed with costs to the claimant.

### Some Change

"When motor becomes ice," asked the teacher, "what is the greatest change that takes place?"

"The greatest change, ma'm," said the little boy, "is the change in price." — The Ledge.

**SIMPLE AS A.B.C.  
TRY IT TONIGHT FOR  
YOUR NERVOUSNESS**

Worn out, tired in the morning, you lack the energy and ambition to do your work. This means nerve decay—nerves that are starved for the want of good, rich blood.

It's blood nourishment that vitalizes nerves. Good blood is good, weak, worn-out blood is poor, one that hangs on because your kidneys don't filter properly.

See here, fix up your kidneys, put them in your system and you'll feel like new in a short time.

To do this, you must use Dr. Hamilton's Pills. They make life look bright and pleasant because they restore harmony and vigor to the organs that need repair.

Dr. Hamilton's Pills warm the blood and fill it with nutriment that's bound to keep you up, and help fit your weaknesses, that invariably does make joyous, robust Good Health.

Full of it, youthful strength, lots of nerve force, plenty of red blood surging through your veins — isn't this reason enough for your using Dr. Hamilton's Pills? Sold 25c boxes by all dealers.

(Continued)

His nights were busy with his investigations, but on Sundays, as usual, he went out to Duncans'. He had developed the habit of attending morning service; he loved the music, and it was customary for Edith to sing a morning solo. Her voice, which had entranced him when they first met, had developed wonderfully. It filled the morning air like the clear tolling of silver bells. For its sake he gladly endured the sermons, and even in the sermon he sometimes found common ground with the preacher. They could meet on any faith that postulated the brotherhood of man. But the reverend speaker touched such a subject warily. It seemed to Dave he would gladly have gone further, but was held in restraint by a sense of the orthodoxy of his congregation. Too literal an interpretation of the brotherhood of man might carry the taint of Socialism, and the congregation represented the wealth of the city. It was safer to preach learnedly on abstractions of belief.

This morning Edith had not been in her place, and the service was flat. In the afternoon she was not at her home. Mrs. Duncan explained that Edith had gone to visit a girl friend in the country; would be away for some time. Dave felt a foolish annoyance that she should have left town. She might at least have called him up. He thought, "Why should she call him up?" Of course not. Still, the town was very empty. He drove with Mr. Duncan in the afternoon, and at night took a long walk by the river. He had a vague but oppressive sense of loneliness. He had not realized what part of his life these Sunday afternoons with Edith had come to be.

**Helps a Weak Throat  
Strengthens the Voice  
Cures Bronchitis**

By Breathing the Healing Balsams of  
CATARRHOSE You Are Cured  
Without Using Drugs

You breathe through the CATARRHOSE into the medicine, and the healing, soothing balsams, full of pungent antiseptics that resemble the oils of the pine woods in the Adirondacks. The piney vapor is a most miraculous agent on weak throats. It brings strength and health to the bronchitic, stops that hacking, irritating cough, prevents hoarseness of the voice, relieves the pain. You can't find anything for weak-throated people more beneficial than CATARRHOSE. It means heaven on earth to the man that has had bronchitis, catarrh, or any other respiratory trouble. This first time you use CATARRHOSE, which is a scientific preparation specially designed for diseases of the nose, throat and bronchitis, you will notice a difference in a few hours. He knew that one of that number would be the instrument in the hands of the devil in his betrayal. He knew that all things were in his hands; was fully conscious of his duty. Notwithstanding all this, he displayed patient and untiring love. He did not withdraw his love from them because of their weakness and the shameful failure which he knew would soon be made manifest.

II. Christ Washing His Disciples' Feet (vv. 4-11).

This act is symbolic of his amazing love for his disciples. Jesus did not regard his hand as too holy to do this menial service. The true Christian does not allow his rank in society to keep him from acts of lowly service.

1. Steps in this service: (1) He rose from supper, (2) laid aside his robe, (3) took a towel and girded himself, (4) poured water into a basin, (5) washed his disciples' feet.

He was arranged for the necessary credits, but there will be some expenses for cables, etc., and you can put your hundred into that. If we pull it off — and we will pull it off — we start up in business as CONWARD & EDEN, or EDEN & CONWARD, whenever sounder boy, there's a fortune in it.

"What do you figure it's worth?" said Dave, trying to speak easily.

"Twenty-five dollars an acre?"

Conward showed, "Dave, newspaper routine has killed your imagination, little as one would expect such a result. Listen!

"The city boundaries are to be extended—probably will be by the time this deal goes through. Then it is city property. A street railway system is to be built, and we'll see that it runs through our land. We may have to 'grease' some roads, but it's a poor engineer that saves on grease.

Then we'll survey that section into twenty-five foot lots—and we'll sell them at two hundred dollars each for those nearest the city down to one hundred for those farthest out — average one hundred and fifty, total, one hundred and sixty thousand dollars. Allow, say, sixty thousand for 'grease' and there is still nine hundred thousand, and that doesn't count real estate commissions. Dave, it's good for a cool million. And that is just the beginning. It will give us a standing that will make anything possible."

"You mean you made a thousand dollars on that deal?"

Exactly. And that will look like a peanut to what we are going to make later on."

"We?"

"Yes. You and me. We're going into partnership."

"But I've nothing to invest. I've only a very little saved up."

"Invest that hundred," he said, "why don't you put this up to me?"

"What's that mean?"

"You don't need my little hundred to put this over. Why do you let me in on it?"

Conward smiled and breathed easily. There had been a moment of tension.

"Oh, that's simple," he answered.

"I figure this business is going to be too big for me, and you are the partner I need. I figure we'll travel well in double harness. I'm a good mixer—I know your sound and honorable and people trust you."

"Thanks," said Dave, dryly.

"That's right," Conward continued.

"We'll be a combination hard to beat. You know the story about the brothers in the coal business?"

"No."

"Jim and Fred were coal dealers,

when a revival broke out in their town, and Jim got religion. Then he tried to convert Fred, but tried afraid hard to get Fred to at least go to the meetings. But Fred wouldn't budge. Said it wasn't practicable.

Jim argued and coaxed and prayed, but without result. At last he put up to Fred.

"Fred," he said, "why won't you come to our meetings?"

"Well," the brother answered, "it was all right for you to get religion. Sort of lends respectability to the firm. But if I get it, too, who's going to weigh the coal?"

(To Be Continued.)

To Increase Egg Production.  
One hundred real egg layers\* on  
one of the 750,000 farms in Canada  
are the slogan adopted by a poultry  
club just formed in Winnipeg, Manitoba.  
Allowing a Master hen an annual  
revenue of \$75,000.00, an elaborate  
campaign to further this project  
will be waged.

\*People are realizing more and more that the kidneys are an eliminative organ and are constantly working, separating the poisons from the blood. Acid acids backs up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances.

This can be avoided by stimulating the kidneys to increased action, and because of its tonic effect on these organs I would advise any one to get Anuric (anti-ureic-acid) which is to be had nowadays for fifty cents, at almost any drug store.

W. N. U. 1291.

**SUNDAY SCHOOL LESSON**

LESSON FOR NOVEMBER 30

**JESUS TEACHES PETER, TRUE  
GREATNESS**

I. Christ's Amazing Love for His  
Own (vv. 1-3).

Jesus was fully conscious of what

was upon him. He knew that the cross with all its anguish was just before him. He knew that his dis-

ciples would shamefully forsake him in a few hours.

He knew that one of that num-

ber would be the instrument in

the hands of the devil in his be-

trayal. He knew that all things were

in his hands; was fully conscious of

his duty. Notwithstanding all this,

he displayed patient and untiring

love. He did not withdraw his love

from them because of their weaknes-

s and the shameful failure which he

knew would soon be made manifest.

II. Christ Washing His Disciples'  
Feet (vv. 4-11).

This act is symbolic of his amaz-

ing love for his disciples. Jesus did

not regard his hand as too holy to

do this menial service. The true

Christian does not allow his rank in

society to keep him from acts of lowly

service.

1. Steps in this service: (1) He

rose from supper, (2) laid aside his

robe, (3) took a towel and girded

himself, (4) poured water into a

basin, (5) washed his disciples' feet.

I've arranged for the necessary cre-

dits, but there will be some expen-

ses for cables, etc., and you can put

your hundred into that. If we pull it off —

and we will pull it off — we start up

in business as CONWARD & EDEN, or

EDEN & CONWARD, whenever sounder

boy, there's a fortune in it.

"What do you figure it's worth?"

said Dave, trying to speak easily.

"Twenty-five dollars an acre?"

Conward showed, "Dave, newspaper

routine has killed your imagination,

little as one would expect such a re-

sult. Listen!

"The city boundaries are to be ex-

tended—probably will be by the time

this deal goes through. Then it is

city property. A street railway sys-

tem is to be built, and we'll see that

it runs through our land. We may

have to 'grease' some roads, but it's a

poor engineer that saves on grease.

Then we'll survey that section into

twenty-five foot lots—and we'll sell

them at two hundred dollars an acre!"

Conward was right. The paper-

print was right. Twenty-five dollars an acre!

Dave was doing rapid thinking.

Conward and their eyes met.

"Invest that hundred," he said, "why don't you put this up to me?"

"What's that mean?"

"You don't need my little hundred

to put this over. Why do you let

me in on it?"

Conward smiled and breathed easi-

ly. There had been a moment of ten-

sion.

"Oh, that's simple," he answered.

"I figure this business is going to

be too big for me, and you are the

partner I need. I figure we'll travel

well in double harness. I'm a good

mixer—I know your sound and hono-

rable and people trust you."

"Thanks," said Dave, dryly.

"That's right," Conward continued.

"We'll be a combination hard to beat.

You know the story about the bro-

thers in the coal business?"

"No."

"Jim and Fred were coal dealers,

when a revival broke out in their

town, and Jim got religion. Then

he tried to convert Fred, but tried

afraid hard to get Fred to at least go

to the meetings. But Fred wouldn't

budge. Said it wasn't practicable.

Jim argued and coaxed and prayed,

but without result. At last he put

up to Fred.

come to our meetings?"

"Well," the brother answered, "it

was all right for you to get religion.

Sort of lends respectability to the

firm. But if I get it, too, who's go-

ing to weigh the coal?"

(To Be Continued.)

**Plenty of Yellow  
Sugar Available**

Trade Commission Says People  
Ought to Be Content With  
Brand

On account of complaints regard-  
ing the sugar shortage, the Canadian  
Trade Commission telephoned thir-  
teen representative boards of trade  
and wholesale grocers' associations  
of Canada, stating that yellow sugar  
was available for immediate delivery.  
The replies have shown no evidence  
of a sugar famine, but some objec-  
tion was made to the proportion of  
yellow sugar offered. It would ap-  
pear that the problem is one of high  
living rather than high cost of liv-  
ing.

The Canadian trade commissioners  
are convinced that the clamor for  
more sugar is due largely to people  
insisting on getting all white sugar  
to the practical exclusion of yellow.

Germany's present population has  
been estimated at as low as 57,000,  
000, as compared with nearly 65,000,  
000 before the war.

The words of a weak woman often  
carry more weight than the muscles  
of a strong man.

I was cured of terrible lumbago by  
MINARD'S LINIMENT  
REV. WM. BROWN.

I was cured of a bad case of ear-  
ache by MINARD'S LINIMENT  
MRS. S. KAULBACH.

I was cured of sensitive lungs by  
MINARD'S LINIMENT.  
MRS. S. MASTERS.

**Plans Large Plant**

Smelter Company Contemplates In-  
stalling a New Concentrator  
At Rossland, B.C.

A report from Victoria says that  
the Consolidated Mining and Smelter  
Company contemplates installing a  
new concentrator at Rossland, B.C.,  
which will cover an area of about  
an acre and involve an outlay of  
at least \$1,000,000. The buildings  
probably will be of steel, with steel  
and glass windows, granite walls and  
concrete floors. The capacity of the  
mill will be 1,500 tons a day. It will  
be designed to treat the ores of the  
Rossland camp by a process that has  
been tested for months at the test  
concentrator at Trail, British Columbia.  
The question of the site of the mill  
is to be unsettled, but Rossland will probably be the first  
choice.

**Of Interest to Well Informed**  
The human body has 240 bones—  
know that?

The first typewriter was invented  
in 1876. The late Mr. Shakespeare  
thus was saved the large expense  
of a "steno."

A fathom, which is equivalent to  
six feet, is derived from the height  
of a full-grown man.

A woman's brain is at its topmost  
point of excellence at the age of 25,  
and a man's ten years later. That's  
what they say especially because,  
respectively, they weigh most at those  
ages. That, however, isn't saying  
that a man of 35 can't put anything  
over on his 33-year-old wife.

From signed statement of Mrs.  
Albert Ellis, Westenberg, N.S.

For every purpose of the toilet

Seventy Mammals Were Secured By  
a Single Vessel

With the arrival in Victoria recently  
of three whaling ships, the season

has come to a close after a most suc-  
cessful period of fishing.

The leading boat secured seventy mammals,

which is considered a good record.

There was an unusually large number

of sperm whales caught, averaging

about thirty feet each, as against the

sixty feet full grown whale. Many

subwhales were also shot, running

eighty-six feet. One mammal meas-  
uring forty-four feet in girth yielded

162 barrels of oil.

**Sounding Oceans' Depths**

Sounding, or determining the depth

of the ocean, is now being accom-  
plished by means of an echo.

The instrument used is being installed on

the steamship Governor, a vessel just

returned by the government to its

private owners, and now in coastwise

trade between San Diego and Seattle.

The device records the depth of the ocean from a distance of one fathom to 5,000 fathoms, and will

record four soundings a minute.

CUTICURA  
HEALS  
ECZEMA

All over baby's face — Come in  
water blisters and then form a solid

scale. Began to itch and burn so  
badly he wanted to scratch. Face was badly

disfigured. Trouble lasted 4 months.

Began to itch and burn again.

Used one cake from and one box

blatum when he was healed.

ment, Cream, Salve, Oil, Soap, etc., send envelope.

**CHURCH CORNER**  
QUIET HOUR THOUGHTS

Men went wrong when they turned from theocratic or direct government by God as expressed in God's appointed judges, and choose King Saul, and the world at large will continue wrong until man's attempts at ruling and righting wrongs are demonstrated a failure and we return to theocratic government of this world as expressed in a returned Christ as an earthly ruler.

Did you ever notice small men usually covet big jobs? This is true in church life as in other spheres. The church is full of men to day who are as busy as they can be writing books explaining the Bible—books which the Scriptures make powerful plain.

Many followers of Jesus are wasting their energy in efforts to bring the (whole) world into service to God, whereas, no such result of Christian endeavor is anywhere set forth in the Bible.

Instead of such the Word establishes the fact that "evil men shall wax worse and worse, until the end."

The whole teaching of the Bible is that while Christians must pray and work for the conversion of men, that as a whole, the world will never be brought to the service of God until Jesus returns as a material earthly ruler and sets up his kingdom on earth at this time Satan will be bound and not before.

The work of God's servants is in the invisible church; praying, interceding, preaching; all the long line of Christian activities—in the invisible church—but not in attempts to frustrate the acts of God Almighty by ameliorating the conditions of a sinful world which is under the curse of God until it seeks Him in repentance.

**Foretelling The Weather**

When standing on high ground and the horizon is unobstructed from all quarters, if the sky is absolutely cloudless, look for a storm within forty eight hours.

If it starts to rain after seven o'clock in the morning it will continue to do so all day, and very often it is the indication of a three day's rain.

When it is raining and it brightens and darkens alternately you can count on an all-day rain, with a chance of clearing at sundown.

When the rain ceases and the clouds are still massed in heavy blankets one sure sign of clear weather is the patch of blue sky that shows through the rift large enough to make a pair of "sailor's breeches."

Another sign of continued rain is when the smoke from the chimney hovers low around the house-top. When it ascends straight into the air this indicates clearing weather.

A foggy morning is usually the fore-runner of a clear afternoon.

A thunder-storm in winter (usually in January or February) is always followed by clear, cold weather. It is not, as many think the breaking up of winter.

People living near the seashore say a storm is "brewing" when the air is salty, caused by the wind blowing from the east.

A red or copper-colored sun or moon indicates great heat. A silvery moon denotes clear, cool weather.

An old Indian sign of a dry month was when the ends of the new moon were nearly horizontal and one of them resembled a hook on which the Indian could hang his powder-horn.

Many people troubled with rheumatism and neuralgia usually are excellent barometers and can predict changeable weather by "feeling it in their bones."

And the advice of the old weather sage is "never go out during April month without your umbrella."

And then, for the special benefit of those who never can remember anything they read in prose, but do have a faculty for retaining

**NOTICE TO CANADIAN FOR SHIPPERS**

**"Shubert" - A Canadian House**

For the convenience of Canadian for shippers, "Shubert" is operating a Canadian for house—A. B. Shubert, Ltd., 324 Donald Street, Winnipeg, Manitoba, Canada.

This procedure (says Mr. A. B. Shubert, president of A. B. Shubert, Ltd., Winnipeg, Canada) was due to an increasingly large amount of new Canadian shippers each season and since Shubert has always had "the shippers interest at heart," we make these comments so that we may be closer to the Canadian for shippers thereby giving him advantages which could not otherwise be applied, such as returns, "quicker," "better service," closer co-operation and always liberal grading—highest market prices.

"Shubert" requires no introduction to the Canadian for shipper, having been in the field satisfying the shippers for over thirty six years. "Shubert" is now prepared to give Canadian for shippers "better service" than ever before.

Canadian for shippers are kindly requested to address all inquiries or communications to A. B. Shubert, Ltd., 324 Donald Street, Winnipeg, Canada.

**Story of a "Blind"**

A small store keeper, to the surprise of his brethren, suddenly decorated his window with a gorgeous new blind.

"Nice blind of yours, Isaac," quoth his neighbor.

"Yes, Aaron."

"Who paid for it, Isaac?"

"The customers paid, Aaron."

"What? The customers paid for it, Isaac?"

"Yes, Aaron. I put a little box on my counter. 'For the blind' and they paid in."

jingles, the following important formulas are set out in verse;

Red in the morning the sailor's warning.

Red at night the sailor's delight.

When you see a mackerel sky,

Twill not be many hours dry.

When the seagulls inland fly,

Know ye that a storm is nigh.

A ring around the moon

Means a storm is coming soon.

When it rains before seven,

Twill clear before eleven.

# Community Service

**T**HAT is what the ENTERPRISE stands for. We intend to be of service to everyone located in the Crows' Nest Pass.

We are endeavoring to get correspondents and aim at fuller local news reports, while eliminating anything approaching scandal or personal unpleasantness. It is our desire to make the ENTERPRISE one of the best local weeklies in Alberta.

A Newspaper performs a vital service to a community. It binds the scattered threads together and assists community developments socially and commercially. You can do your part to assist us in our aims. If a workman your subscription helps, if a business man your advertising and job printing.

Advertisers and subscribers will benefit directly and indirectly, to far more than it costs them by linking up with the ENTERPRISE.

New Northern Alberta  
Homestead Map

In the provinces of the Dominion there is no territory that appeals more to the man of vision than that of Northern Alberta.

Those courageous souls who were lured to this region before great steel highways connected Edmonton with McMurray, Peace River, Spirit River and Grand Prairie, were the first to reveal the tremendous opportunities this country offers in its agricultural lands, minerals, forests and fisheries.

The returned soldier-farmer is preparing his way thither to homestead on vacant Dominion lands and to reap wonderful crops from the remarkably fertile soil. Lands that afford good grazing for cattle and being quickly taken up will be soon covered over by farms. Northern Alberta, has a great future in the raising of fine stock and thanks to the prevalence of the dry warm chinook winds the snow never attains a great depth and consequently disappears very early in the spring.

The mineralogist and prospector have been attracted by the mineral possibilities which they have obtained as yet but a glimpse into the hidden treasures. Lode gold, iron and nickel-ore have been discovered on the shores of Lake Athabasca. The Rocky Mountain Canyon, above Hudson Hope shows seams of coal of excellent quality while coal measures of probably very large extent outcrop on Pine river and on the headwaters of Smoky river. Gypsum often associated with salt has been found in the valleys of the Peace and Slave rivers, some

beds 20 to 60 feet in thickness are exposed for 15 miles on Peace river at Peace Point. But it is in the discovery of the latent petroleum resources that tremendous possibilities confront not only Alberta and Canada, but the whole world. In Northern Alberta and the surrounding areas the Mackenzie oil field, an exceedingly large area of possible oil-bearing country that has not yet been explored. The drilling operations of two of the great oil companies of the world will be followed with the closest interest.

Among other assets of this northern region must be mentioned the great fresh water fishing areas. The commercial fisheries established at lakes La Biche, Lesser Slave and Athabasca are making excellent progress in their output of whitefish, pike and pickerel.

A new edition of the Northern Alberta Homestead Map by the Department of the Interior comes out at a very propitious time. A comparison with previous issues makes very apparent the increased knowledge that has been acquired about the area and shows the greatest concentration of human settlements. North of the 49th parallel of latitude the areas that seem to be most favoured by settlers are Grand Prairie, Peace River, Waterhole, Peace Coups, Spirit River, McLean and High Prairie districts. Here and there on the map are to be seen patches of dark green indicative of grazing leases, while throughout these regions all those lands shown in yellow are still available to the returned soldier.

A copy of this map and other publications regarding climate, transportation facilities, nature of soil, etc. may be obtained free of charge upon application to the Superintendent, Natural Resources Intelligence Branch, Department of the Interior, Ottawa.

## The War And Love

The war gave occasion for the meeting of representatives of all races, and since all races can boast of pretty girls and attractive men, the inevitable happened and love found its way. When the news came that Canadian soldiers had started to marry English women, nobody was of course surprised. When they began to marry French

## ADMISSION

For those without season tickets: Adults 50c. Children 25c.

girls, there was some surprise. When the reports came that they were actually marrying German girls there were both surprise and disgust. In regard to the cross-marriage some official statistics show what was done from 1915 to 1917. During that time 726 Frenchmen married Belgian women; 149 Englishmen married French girls; 72 English women married French men; 61 Americans married French women, and 15 Frenchmen married American girls. Since the dates above mentioned there must have been a vast amount of this interracial marrying. We have seen the statement that ten thousand Americans were

bringing home French wives and that likewise a vast number of Canadians had married English girls. At any rate, as long as the Canadian and American girls are not too jealous this form of a "League of Nations" is not to be reprobed. Such unions tend to broaden the mind and the sympathies and are not inconsiderably effective in helping to bring about entente cordiale between the Great Allies that will laugh at time and deft change.

# U.S. Senate's Action Puzzle to Britain

London.—Nearly all British public men are silent concerning the United States senate's dealings with the peace treaty. The reason for this is that they understand United States citizens regard the question as United States domestic political affairs and fear that any expression from them might give offence, and be taken as attempts to influence United States policy.

Lord Robert Cecil and Lieut.-Gen. Jan Christian Smuts were the British sponsors for the League of Nations and are largely responsible for the details thereof and both have registered their disapproval at the latest turn of events. Gen. Smuts in his appeal to the United States, and Lord Robert Cecil in a brief speech in the House of Commons.

Lord Robert stands on that speech and refers all questioners to it as being all he has to say on the subject for the present.

It would be impossible to try to summarize public opinion. The first view reflected by the newspapers was that the United States had gone back on her agreement. Later advices from Washington, however, softened this feeling.

United States affairs generally, the relations between the senate and the President, the rule regarding the two-thirds majority and how a concurrent resolution might bring peace with Germany, are puzzling to the average man.

## Sir Henry Drayton Thanks Workers

Gratification at Success of the Victory  
Loan and Appreciation of Patriotic  
and Service Rendered.

Ottawa.—In a statement handed to the Canadian Press, Sir Henry Drayton, Minister of Finance, expressed his gratification at the success of the Victory Loan and his appreciation of the enthusiastic and patriotic service rendered by these workers in its behalf. He suggests that subscribers everywhere will help to confirm the credit of Canada by holding the bonds which they have purchased.

## Outbreaks in Fu Chow

Several Chinese Students Killed and  
Three Wounded.

Anony. Chins.—There have been serious boycott outbreaks in Fu Chow. Several Chinese students have been killed and three wounded by Japanese subjects.

All the schools and markets have been closed.

The situation throughout Fuiken is serious.

**Johnson's Condition Is Improved.**  
London.—The condition of William Johnson, the American anti-saloon organizer, is greatly improved. Johnson suffered a severe injury of the eye recently in an attack on him by medical students and others during the course of a debate on prohibition, in which he was engaged.

## Explain Delay in Wheat Shipments

Winnipeg.—Following the announcement of Jas. Stewart, chairman of the Wheat Export Board, that failing to move winter wheat to normal volume was due to failure of the railways to supply the Canadian railway sub-committee of the Canadian Railway Association has issued this statement:

"Referring to the statement made to the press by James Stewart, chairman of the Canadian Wheat Board, respecting the movement of wheat to the head of the lakes; in arriving at his conclusion and in comparing this year's movement with the record one of 1915, Mr. Stewart has conveniently overlooked a number of important factors."

"First.—That while the crop matured earlier than usual this year, harvesting was delayed over a large portion of the West and marketing was unusually light until freeze-up came."

"Second.—That winter struck the prairies about a month earlier than usual, with the inevitable result that transportation was slowed up."

"Third.—That as a result of the prolonged western coal strike the railroads were called on to move more commercial coal during the present

## U. S. Will Not Attend Labor Meeting

### Canadian Labor Delegates Say That It Should Make No Difference

Washington.—Rejection of the peace treaty by the United States was widely discussed among delegates to the international labor conference. There is general regret that the United States will not, as a result of the senate's action, be a signatory of conventions adopted by the conference. At the same time there is a general feeling that the labor branch of the League of Nations should go ahead with its work irrespective of what the United States may do.

Canadian employers have already expressed the view that Canada should not assent to labor conditions to which the United States is not prepared to assent.

Canadian labor takes an entirely contrary view. Tom Moore, president of the Trades and Labor Congress, holds that steps taken by the United States should not hinder the adoption of progressive legislation by Canada, "even though the United States decides for the time being not to become a member of the League of Nations."

Tom Moore said: "I am of the opinion that the United States will eventually be forced by economic conditions to adopt progressive measures similar in the provisions to those decided upon by the labor conference."

## Australia Suffers From Severe Drought

Stock and Crops Have Been De-  
stroyed and Thousands of  
Settlers Ruined.

London.—Australia, especially New South Wales, is suffering the most devastating drought since white men have resided in that country, even the drought of 1902 being surpassed, according to a Sydney dispatch to the Daily Mail.

Stocks and crops have been destroyed, and it is doubtful whether there will be enough seed wheat for next season's sowing. Hundreds, and perhaps thousands of settlers have been ruined. Northwestern New South Wales is described as a desert, being stripped of everything green. Paddocks are littered with the skeletons of cattle, and even rabbits are dying in vast numbers.

To Investigate Shipbuilding

Victoria.—For the purpose of sizing up the shipbuilding situation in the United Kingdom and possibly to place an order with one of the Old Country firms for the construction of a new steam passenger ship for the British Columbia coastwise passenger trade, Capt. J. W. Troup, manager of the British Columbia coastwise steamship service, after conferring with the company officials in Montreal, will take passage to England.

## Great Britain Removes Whiskey Restrictions

Release of 115,000,000 Gallons An-  
nounced in House of Commons

London.—One hundred and fifteen million gallons of whiskey, besides other quantities of spirits in bond in Great Britain, were released from wartime restrictions, and may be distributed to all-comers who can pay the amount the dealers set.

The announcement of the removal of the restrictions, which was made without warning in the House of Commons by the Food Controller, came as a surprise to the members who greeted it with loud cheers.

The liquor trade was equally surprised, as was besieged by the well-to-do among the public as soon as the unexpected news spread. Many orders of from fifty to a hundred dozen were placed immediately, in addition to numerous commissions for smaller quantities. Although it is figured that enough spirit has been thus freed to supply every man, woman and child in the country with thirty-six bottles apiece, it is doubtful if the public will find it easy at present to increase consumption to a great extent. The government maintains control of the maximum price, for which whiskey is ten shillings and six pence per bottle, and it is not believed that the dealers will sell much below that figure, as the existing duty will remain.

Moreover, restrictions on distillation during the war and the necessity of maturing stocks may lead the dealers to hold large quantities. On the other hand, it will be possible to sell cheap American whiskey, which has reached and is still reaching England, though clearance from the customs may be slow.

## Planned Assassinations

Fatal Presents Were Intended for  
U.S. Government Officials

Philadelphia.—Discovery of the explosive Christmas mail packages was announced by Superintendent of Police James Robinson.

Information of the plot, which is considered reliable, indicates it is nation-wide and directed against federal, state and city authorities who took part in the national roundup of anarchist plotters and overthrow of the government. Immediate steps were taken to prepare federal investigators, postal authorities and police action against the "mail terror" which is scheduled to begin operation shortly before and during the Christmas holidays.

Evidence of the existence of a plot to send bombs through the mails under ribbons and holly was reported to Capt. J. W. Troup by Andrew Emmanuel, head of the bomb squad who said he unearthed it during his investigation of radical activities here. The information was checked and verified according to Emmanuel.

The source of information was carefully withheld by the police. It is believed to have originated from an "anarchist squad" who was afraid of the consequences of the plot.

Complaints of Vaccination

Toronto.—Allegations against the civic department of public health in connection with forced vaccination in the schools were made at a meeting of the board of control, and will be thoroughly investigated. Parents told the board that their children were compelled to submit to vaccination, despite the fact that they sent letters to the school demanding that this be not done.

Attempt to Kill Admiral Kolchak

London.—An attempt to assassinate Admiral Kolchak, head of the All-Russian government, which until recently maintained its capital at Omsk, is reported in a wireless dispatch received here from Moscow. Hand grenades were thrown at Kolchak, soldiers being killed and twelve

injured.

"Fifth.—That the early advent of winter, coupled with a shortage of feed, threw on the railways the burden of handling, during the months of October and November, at least three times the number of head of livestock which would normally move at this period of the year.

"Sixth.—That the railroads controlled by the American railroad administration had failed to return thousands of cars belonging to Canadian railways, which are now south of the line. After allowing for the American cars which are in Canada, the balance stands 22,471 cars in favor of the United States roads.

"Seventh.—That in dealing in figures respecting the movement of grain, Mr. Stewart, in his report, did not take into account the fact that the Indians, who always had a large proportion of car load grain, had left the former years."

Winnipeg.—Following the an-

nouncement of Jas. Stewart, chairman of the Wheat Export Board,

that failing to move winter wheat

to normal volume was due to failure

of the railways to supply the Cana-

dian railway sub-committee of the

Canadian Railway Association has

issued this statement:

"Referring to the statement made to the press by James Stewart, chairman of the Canadian Wheat Board, respecting the movement of wheat to the head of the lakes; in arriving at his conclusion and in comparing this year's movement with the record one of 1915, Mr. Stewart has conveniently overlooked a number of important factors."

"First.—That while the crop matured earlier than usual this year, harvesting was delayed over a large portion of the West and marketing was unusually light until freeze-up came."

"Second.—That winter struck the prairies about a month earlier than usual, with the inevitable result that transportation was slowed up."

"Third.—That as a result of the pro-

longed western coal strike the rail-

ways were called on to move more

commercial coal during the present

fall than in 1915, or any fall before

the fall of 1915."

"Fourth.—That the railways had

this fall been called on to provide

transportation for a larger tonnage

of lumber, fruit and general mer-

chandise than ever before.

"Fifth.—That the early advent of

winter, coupled with a shortage of

feed, threw on the railways the bur-

den of handling, during the months

of October and November, at least

three times the number of head of

livestock which would normally

move at this period of the year.

"Sixth.—That the railroads con-

trolled by the American railroad ad-

ministration had failed to return

thousands of cars belonging to Cana-

dian railways, which are now south

of the line. After allowing for the

American cars which are in Canada,

the balance stands 22,471 cars in

favor of the United States roads.

"Seventh.—That in dealing in

figures respecting the movement of

#### Gifts For Ladies and Gentlemen

## Christmas Suggestions

TRONO, the Jeweller, has a splendid selection of Jewellery, Cut Glass, Silverware, Mantel Clocks, Manicure Sets, and French Ivory in the articles the ladies love so dearly

Solid Gold Watches, Watch Fobs, Finger Rings, Ear Rings, a full line of the Newest Designs in Wrist Watches, Bracelets, Solid Gold Bracelets, from \$10 to \$100, also a splendid assortment of Electric Toasters, Irons, etc. Diamonds from \$10 up to \$500. Do not forget to look over our Genuine French Ivory Display. This is exceptionally fine, and every piece stamped.

Blairmore people will remember the aeroplane which passed over this town en route to Lethbridge from Vancouver, a few months since. The machine was a Curtiss, and the same company is now making a high-grade Talking machine, known as the Curtiss Aeronaut. We have secured the local agency. Ask to see it.

We still have the agency for the old reliable Victrolas, also the new Melotone, a medium priced machine. Do not forget that we have 1000 records for these machines to choose from. Call and hear them.
